

Average residential ESS price per 1GW in Oman

How much does electricity cost in Oman?

Oman, June 2023: The price of electricity is 0.026 U.S. Dollar per kWh for households and 0.223 U.S. Dollar for businesses which includes all components of the electricity bill such as the cost of power, distribution and taxes.

What is Oman's power sector?

Oman's power sector is structured around the single buyer model. Oman Power and Water Procurement (OPWP) is the sole purchaser of power and plays a central role in the sector. In 2021 Oman plans to launch an electricity spot market, the first in the GCC. The spot market will allow generators without a PPA to sell electricity to OPWP.

Will Oman launch a spot market in 2021?

In 2021 Oman plans to launch an electricity spot market, the first in the GCC. The spot market will allow generators without a PPA to sell electricity to OPWP. OPWP will remain the counterparty to all electricity sold in the market. The spot market will commence at a time of considerable uncertainty in Oman's power sector.

What is Oman power & water procurement (opwp)?

Oman Power and Water Procurement (OPWP) is the sole purchaser of power and plays a central role in the sector. In 2021 Oman plans to launch an electricity spot market, the first in the GCC. The spot market will allow generators without a PPA to sell electricity to OPWP. OPWP will remain the counterparty to all electricity sold in the market.
