How to get rid of freckles with kiwi fruit?

Kiwi fruit contains flavonoids like quercetin that may inhibit tyrosinase activity (18). This may lead to a reduction in any skin pigmentation, including freckles. Make a thick paste of the two fruits by blending them. Apply this fruit pack on the areas with freckles. Leave it for about 20-25 minutes before rinsing it off. Do this two times a week.

Does sunscreen get rid of freckles?

Sunscreen won't get rid of existing freckles, but it helps prevent new ones. You should wear sunscreen year-round, even when it's cloudy. The American Academy of Dermatology offers these tips: Sunscreen should have an SPF of 30 or higher. Apply sunscreen to bare skin at least 15 minutes before going outdoors.

How to get rid of freckles & brown spots?

The sulfur content of onion makes it one of the best home remedies that can be used to get rid of freckles and brown spots. The sulfur in the onion can help exfoliate the skin, thus reducing the number of blemishes that can be seen. You'd better use red onion more than white onions for best results. Option 1: Cut one onion into thick slices.
