

Fluence energy storage what company is it

Who is fluence energy Inc?

Fluence Energy Inc (Fluence) is a provider of energy storage solutions and digital applications for renewables and storage. The company offers energy storage products such as utility-scale energy storage, grid-scale energy storage, high-performance energy storage, PV-optimized energy storage, and commercial energy storage.

What is fluence energy storage?

Fluence offers energy storage products that are optimized for common customer applications but can be configured for specific use cases and requirements. All Fluence products can be delivered as turnkey solutions to the customer including all associated balance of plant equipment.

What does Fluence do?

Fluence is enabling the global clean energy transition with market-leading energy storage products and services, and digital applications for renewables and storage. Fluence offers an integrated ecosystem of products, services, and digital applications across a range of energy storage and renewable use cases.

Is fluence energy a publicly traded company?

Fluence Energy, the energy storage supplier jointly formed by AES and Siemens that now stands alone as a publicly traded company, has begun domestic manufacturing of its battery modules at a plant in Utah.

What is Fluence technology stack?

Fluence offers an integrated ecosystem of products, services, and digital applications across a range of energy storage and renewable use cases. Our standardized Technology Stack makes it easier for you to rapidly and cost effectively deploy energy storage, and optimize storage and renewable assets.

Where is Fluence based?

Headquartered in Arlington, Virginia, the company was established as a joint venture between Siemens and AES Corporation in 2018 before going public in 2021. Fluence designs, deploys, and provides ongoing services for utility-scale energy storage systems, including their flagship Gridstack(TM), Sunstack(TM), and Edgestack(TM) product lines.
