

Government procurement price of Solar Panel in Portugal

How much does Portugal pay for solar panels?

Portugal news & Finance & Government support for solar panels falls to EUR1,000 in Lisbon and Porto. The Minister of the Environment, Duarte Cordeiro, announced the reopening of applications to the More Sustainable Buildings Program from August 16 until October 31. The allocation of the first notice of 2023 will be 30 million euros.

Why is solar energy so expensive in Portugal?

Portugal faces some of the highest electricity prices in Europe, driven by taxes and network costs. With rising electricity costs making it more expensive to power appliances, heat water, and cool homes, solar energy offers a cost-effective solution.

How much does a solar farm cost in Portugal?

Solar farm in Portugal. Author: Hugo Cadavez. The ceiling price in the tender was EUR 41.54 and EUR 41.73 per MWh depending on the lots. According to the government, South Korean firm Hanwha Q Cells managed to secure six of the 12 lots, or 315 MW in total. About 483 MW of the awarded capacity will come with an energy storage element built in.

How much does a solar auction cost in Portugal?

Portugal's second solar auction has closed with record-breaking low prices of EUR 11.14/MWh (US\$ 13.12), or US\$ 0.0131/kWh, the country's government announced this afternoon. Of the 700 MW available for auction, 670 MW was awarded, with Hanwha Q CELLS winning half of the 12 lots with bids that included battery storage.

How do solar panels work in Portugal?

Any excess solar energy that is not used immediately can be fed back into the grid through Portugal's self-consumption scheme. Homeowners receive compensation for the surplus energy they supply. This means even if you're not at home during the day, your solar panels can still generate value by selling energy back to the grid.

How successful are solar tenders in Portugal?

Thanks to two successful solar tenders, the Portuguese photovoltaic (PV) market is experiencing a surge in large-scale projects. Both solar tenders were very successful in attracting a great deal of bids and resulted in record-low bids, \$0.016/kWh in July 2019 and \$0.0132/kWh in July 2020, according to Portuguese financial newspaper Expresso.
