

Hybrid solar storage supplier quotation in Czech 2030

Will a battery storage system help Czech companies achieve net zero?

The high penetration of renewable generation projects in the region could deliver a large amount of clean energy and really accelerate the journey to net zero, but at the moment Czech companies are not in a position to reap the full benefits of solar and other renewable energy sources. To do so, battery storage will be essential.

Why are Czech businesses investing in renewable projects without subsidies?

The subsidy increases to cover up to 75% of costs for community projects. But what we noticed at Wattstor is that Czech businesses are investing in renewable projects even in the absence of subsidies, because they have realised the strong business case for generating clean energy on site.

Can rooftop solar panels be utilised in the UK?

For example, in the UK we recently worked with pharmaceutical distributor, Mawdsleys, to maximise the installed capacity of their rooftop solar panels. Because of grid constraints, Mawdsleys' solar panels could only generate about 40% of the plant's required power.
