

# Hybrid solar storage tender price in Singapore 2026

What is the HDB solar leasing tender?

The Housing & Development Board (HDB) has launched the eighth solar leasing tender under the SolarNova programme. The largest tender to date, this tender covers the installation of solar panels across 1,075 HDB blocks and 104 government sites (Annex A), with a solar capacity of 113 megawatt-peak (MWp).

Where to find solar tenders from Singapore?

TendersOnTime is the best website, when it comes to Global Tenders Search for Solar eTenders from Singapore. Users can get complete tender detail of products like: Solar Pole Tenders, Solar Power Tenders, Solar Product Tenders, Solar Project Tenders, solar pump Tenders.

How does tendersontime help Singapore solar?

Apart from providing information on Singapore Solar, TendersOnTime also helps its clients by way of providing bidders list, tenders support and e bidding services in Singapore.

Why is HDB a leading solar power provider in Singapore?

HDB is the largest driver for the installation of solar PV systems in Singapore today, having committed a total solar capacity of 440 MWp, more than 80% of its 540 MWp solar targets by 2030.

How is solar energy used in HDB estates?

In HDB estates, solar energy that is harnessed is first used to power common services, such as lifts, lights, and water pumps in HDB estates in the day. Excess solar energy is channelled to the grid. On average, we have been able to achieve net-zero energy consumption for the common areas of HDB blocks where solar panels have been installed.

What is the largest solar tender in the world?

With a solar capacity of 113 megawatt-peak (MWp), this is the largest tender to date and is expected to be completed by the third quarter of 2026.
