

# Lithium energy storage power supply price trend

Is lithium a future for EVs and energy-storage systems?

As EV adoption and energy-storage installations increase, global demand for lithium is expected to surpass supply, setting the stage for a price recovery. A shortfall of 97Kt is projected by 2030, increasing to 621Kt by 2040. Lithium will remain indispensable for EVs and energy-storage systems.

What is TrendForce lithium battery research?

TrendForce Lithium Battery Research provides intelligence on market prices and interpretations of market price trends through close and frequent communications with major suppliers, merchandizers, and traders of China's li-ion battery supply chain, as well as cross-research and tracking on monthly spot prices for key products of the supply chain.

What is the lithium market outlook?

Despite short-term oversupply, the lithium market outlook indicates a widening deficit. By 2030, the supply of lithium (lithium carbonate and lithium hydroxide) is projected to reach 373Kt, while demand is expected to hit 472Kt (with 81% of this demand driven by EVs and grid battery storage), creating a shortfall of 97Kt of lithium.

Why is the lithium market so volatile?

Published on April 30, 2025 by Shakun Singh The lithium market has experienced significant price volatility in the recent past because of fluctuations in supply and demand.

Will demand for lithium surpass supply in the coming years?

IEA data projects demand for lithium to surpass supply in the coming years. This imbalance is expected to drive a recovery in lithium prices. Lithium is expected to play a crucial role in the transition to clean energy solutions, supporting the expansion of EVs and energy-storage systems. 1. Cautious supply response

Why is the lithium price graph under pressure?

Analyst Insight According to Procurement Resource, the lithium price graph is expected to remain under pressure due to ongoing oversupply in major markets, with inventory levels continuing to weigh down the market. Please Login or Subscribe to explore our dashboard.
