

NMC battery storage tender price in Israel 2026

How much does a battery cost in Israel?

Israel's storage tender sets prices between \$0.0056 and \$0.0085 per kW, with kWh figures therefore at \$49.41 to \$74.20 per kWh. Israel has awarded contracts for 1.5 GW of high-voltage battery storage capacity across three regions, marking a significant milestone in the country's energy transition.

How many mw can a battery store in Israel?

Israeli renewable energy developer Enlight has won grid connection rights for 300 MW of battery storage capacity in a national tender, enabling the construction of systems that can store between 1,300 and 1,900 MWh of energy.

Can I trust israel tenders for accurate tender information?

You can trust IsraelTenders for accurate Tender information. All Tenders listed on our website are human verified for accuracy. You can receive free sample Tenders from Israel by registering here. You can also get access to 1 Million Global Tenders by contacting Sales team.

How much does it cost to build a storage facility in Israel?

The two facilities - Neot Smadar and Ohad in southern Israel - will operate under regulated tariffs for five years before gaining merchant market access. The projects must begin operations by 2028, with construction costs estimated at \$210-250 million. This latest award accounts for 20% of the capacity allocated in Israel's first storage tender.

How many advanced-stage storage projects will Enlight be operating by 2027?

The company reports 8 GWh of advanced-stage storage projects globally targeted for operating by 2027. The scope represents a significant expansion for Enlight, which has grown from an Israeli solar developer founded in 2008 to operating renewable projects across three continents.
