

# On grid solar storage supplier quotation in Portugal 2025

How much will Portugal spend on energy storage & grid flexibility?

The Portuguese Ministry of Energy has allocated EUR99.75 million (\$107.6 million) for grid flexibility and energy storage projects which should be installed by the end of 2025. From ESS News Portugal is seeking to promote flexibility and balance its power system with energy storage as it continues to break records for solar energy production.

How much will Portugal spend on energy storage projects in 2025?

Portugal's Ministry of Energy has announced that it has allocated EUR 100 million (\$104.2 million) to 43 energy storage projects which should be installed by the end of 2025. A total of 79 applications were vying for grant support secured under the country's Recovery and Resilience Plan (RRP).

Why is Portugal launching a solar energy storage project?

This initiative aims to enhance the flexibility and stability of Portugal's power supply system amid its record-breaking solar electricity production. On July 31, the ministry announced the allocation of EUR99.75 million through a call for tenders to install energy storage projects totaling 500 MW.

Is there a Bess project in Portugal?

Grid-scale BESS projects have been relatively limited in Portugal to date, although utility Iberdrola did bring online a huge, 40GWh pumped hydro energy storage (PHES) project there in 2022. This isn't just another summit - it's our biggest and most exhilarating Summit yet!

Moreover, Portugal's strategic location within Europe offers opportunities for cross-border energy trading, enhancing the relevance of battery storage systems in stabilizing the grid and ensuring ...

The Portuguese government plans to invest up to 400 million euros (\$466 million) to improve grid management and boost battery storage following a massive blackout ...

The developer secured grid capacity for the solar-plus-storage project from REN in September 2023. The other projects awaiting environmental permits include Endesa's 82.17 ...

Is Portugal's solar auction a new era of battery storage? Portugal's recent PV auction marks a new era of battery storage for the country, says UK consultancy Everoze. It notes that the ...

Portugal has reached a new milestone in renewable energy production. In January 2025, 72% of the country's electricity demand was supplied by renewable sources, with wind and hydro ...

On Monday, April 28, 2025, Spain and Portugal experienced the most widespread blackout in Western Europe
