

PV energy storage EPC turnkey quotation per 800kW 2026

What can EPC energy do for You?

We can build out both or add energy storage to existing PV projects. EPC Energy also provides integrated energy storage solutions for microgrid projects that tap into the power of storage, PV, and wind generation asset. We make energy efficiently.

What is an EPC project?

EPC projects that are also known as 'turnkey' and as the contractor assumes responsibility for engineering services, procurement of materials, hiring of teams and materials, and execution of the work, among other tasks, to deliver the project ready to be operated by the client by a given deadline and with a number of guarantees.

How does the EPC scope of work end?

Our EPC scope of work typically ends with documentation, acceptance and transfer to the operational phase. Of course, we are still available to answer on any queries. And if something does not work as planned, we support you as a reliable partner and comply with our contractual obligations.
