

# PV energy storage project financing options in Croatia 2025

How much will Croatia spend on solar?

Croatia is set to allocate EUR25 million for solar plants and heat pumps in the public sector and will also issue a EUR10 million residential solar tender. This is part of a larger EUR652 million package aimed at renewable energy and decarbonisation.

Will Croatia launch a solar tender in 2025?

According to the country's indicative annual publication plan for 2025, published on 8 January, Croatia plans to launch two solar tenders. The first tender, with a budget of EUR10 million, will be aimed at installing residential solar arrays in the second quarter of 2025 and will cover up to 50% of the investment costs.

How much does a solar tender cost in Croatia?

The first tender, with a budget of EUR10 million, will be aimed at installing residential solar arrays in the second quarter of 2025 and will cover up to 50% of the investment costs. Additionally, the Croatian authorities will announce a EUR25 million call to co-finance solar plants and heat pumps for the public sector in the second quarter.

How many public calls will Croatia make in 2025?

Another call for end users is expected in the first half of the year. Croatia's Environment Protection and Energy Efficiency Fund (FZOEU) will distribute EUR125 million across nine public calls in 2025. The Ministry of Environmental Protection and Green Transition (MZOZT) will administer 23 public calls this year, amounting to EUR526.8 million.

The loan guarantee will finance the deployment of up to 1,000 solar photovoltaic (PV) systems and battery energy storage systems (BESS) located primarily at commercial and ...

As such, we're providing this "Cheat Sheet for Energy Storage Finance" based on our work as buy-side and sell-side investment bankers experienced in both energy storage venture capital and project finance. I'm also including some ...

Around a year after announcing its pilot project in Croatia's Slavonia region, Janom Investments has reached the ready-to-build stage for the 30 MW photovoltaic plant. ...

IE Energy, a Croatia-based energy storage operator, is set to build a 50 MW storage project, after securing EUR19.8 million from the Croatian government via state aid from the European Commission ...

The Korlat PV project involves the construction of a solar power plant on an area of about 150 hectares, a connection to the 110 kV transmission network, and a nearby ...

# PV energy storage project financing options in Croatia 2025

The Croatian Government plans to allocate 651.8 million euros in grants in 2025 to support green transition initiatives, focusing on renewable energy and energy storage projects.

As part of its ambitious programs, Croatia will launch notable tenders, including an EUR80 million initiative targeting renewable electricity production for water and waste utilities, ...

Netherlands allocates EUR100m for PV co-located BESS in 2025 Netherlands'" climate minister has allocated EUR100 million in subsidies to the deployment of "'time-shifting"' battery storage with ...

This regulation imposes the highest sustainability standards, ensuring a strong commitment to clean energy. With a potential capacity to support 200 MW of renewable energy projects, the fund offers flexible ...

Integrating battery energy storage systems (BESS) with solar projects is continuing to be a key strategy for strengthening grid resilience and optimising power dispatch. With proper planning ...

The 1,200 MWh Papago Storage project will dispatch enough power to serve 244,000 homes for four hours a day with the e-Storage SolBank high-cycle lithium-ferro-phosphate battery energy storage solution.

Pylon focuses on the field of energy storage and adheres to the business philosophy of Trusted Delivery to provide users with highly reliable, flexible, and cost-effective solutions for energy ...

Similar to other renewable energy projects, the addition of construction bridge debt provides an additional source of capital to pay construction costs, but also adds complexity to the project financing of an ...

The grants will support various projects, including the development of new waste management infrastructure, the generation of electricity from renewable sources, educational ...

The Renewable Energy Sources of Croatia Association (RES Croatia) says Croatia's solar market is growing year over year. But with residential and industrial rooftops ...

Sembcorp has successfully bid into a Solar Energy Corporation of India (SECI) tender to build a large-scale solar PV project paired with battery storage. Lightsource bp picks Hithium to supply ...
