

# Portable ESS system project financing options in Saudi Arabia 2025

Will BYD develop a Bess project in Saudi Arabia?

March 6, 2025: Plans to develop 12.5 GWh of new BESS projects in Saudi Arabia have been announced by China-based BYD. The energy storage battery giant said on February 17 it has signed a development deal with the Saudi Electricity Company.

Who is Saudi power procurement Company (SPPC)?

A Saudi Arabian entity that has been tasked with procuring electricity generation projects has commenced the process. Saudi Power Procurement Company (SPPC) is licensed as the sole buyer of electrical energy. The government is soliciting bids to develop four battery energy storage system (BESS) projects.

Why is energy storage important in Saudi Arabia?

Energy storage is a vital component of this transition, providing grid flexibility and enabling the integration of intermittent power sources such as solar and wind. The project is among several large-scale battery storage initiatives being developed in Saudi Arabia.

What is the world's largest Bess project in Saudi Arabia?

The world's largest BESS project in Saudi Arabia is one that has received accolades from the state government. Under Saudi Arabia's Vision 2030 policy roadmap, the country aims to have a 50% share of renewable energy in its grid.

How many projects has Bess delivered?

Since then, it has delivered more than 75 GWh of BESS equipment to 350 projects in more than 110 countries and regions, catering to various application scenarios across the generation, utility and consumption sides. This landmark project is expected to redefine the role of electrochemical energy storage solutions in the global energy landscape.

The Saudi Arabia energy storage systems (ESS) market size reached USD 4.21 Billion in 2024. Looking forward, IMARC Group expects the market to reach USD 18.75 Billion by 2033, ...

Saudi Electricity Company (SEC) awards the contracts for Battery Energy Storage Systems (BESS) having Combined Capacity of 2,500 MW/10,000 MWh, across Saudi Arabia.

NEOM, a smart city, is one vital element of Saudi Arabia's move from its dependence on oil to a greener future, aiming to achieve exceptional livability, thriving businesses and reinventing conservation, in line ...

The Saudi Electricity Company (SEC) has awarded a series of battery energy storage system (BESS) contracts to China's BYD totalling 2.5 GW/12.5 GWh, multiple Chinese media reported on January 11. The contracts ...

# Portable ESS system project financing options in Saudi Arabia 2025

Introduction Saudi Arabia's Vision 2030 has catalyzed an unprecedented wave of megaprojects designed to transform the kingdom into a global hub for innovation, tourism, and sustainable development. As of 2025, ...

Meagle Energy has successfully delivered a containerized Energy Storage System (ESS) to Saudi Arabia. The system is based on a 20-foot maritime container, designed for efficient transport, ...

Saudi Arabia has unveiled its budget statement for fiscal year 2025, emphasising a continued focus on economic diversification underpinned by the kingdom's Vision 2030 strategy. The statement by the Ministry of Finance highlights fiscal ...

Saudi Arabia's Minister of Finance Mohammed Abdullah Aljadaan has given the green light to the Annual Borrowing Plan for the fiscal year 2025, following its approval by the Board of Directors of the National Debt ...

BYD Energy Storage has signed contracts with the Saudi Electricity Company to deliver 12.5 gigawatt hours (GWh) of BESS equipment for the five energy storage projects - the largest grid-scale deployment in the ...

The project supports Saudi Arabia's Vision 2030 initiative, which targets 50% renewable energy in the national power mix by 2030. The storage systems will integrate with the country's transmission network to manage ...

The contracts are for a 2,500 MW/10,500 MWh battery energy storage system across five key locations. Saudi Electricity Company awards multiple contracts for 10,500MWh ...

The Saudi Ministry of Finance announced today, November 26, 2024, the Budget Statement for Fiscal Year 2025, estimating total expenditures of SAR 1,285 billion, and ...

In addition to public-private partnerships such as through SPPC, Saudi Arabia will host gigawatt-hour scale battery storage facilities to integrate renewable energy at major infrastructure projects such as the Red Sea Project ...

The MENA region is starting to witness a drastic increase in large-scale battery energy storage systems ("BESS") projects, accompanying a soaring penetration of renewable energy. This has happened at a pace, which ...

The project supports Saudi Arabia's Vision 2030 initiative, which targets 50% renewable energy in the national power mix by 2030. The storage systems will integrate with ...

In line with the goals of Saudi Arabia's "Vision 2030" and the "Belt and Road";

initiative, the AMAALA off-grid project will supply continuous green electricity to local ...
