

Who is Great River Energy?

Maple Grove, MN - August 15, 2024 - Great River Energy, a not-for-profit wholesale electric power cooperative based in Minnesota, and Form Energy, a leading innovator in the energy storage industry, are proud to announce the official groundbreaking of the first-of-its-kind 1.5 megawatt (MW) multi-day energy storage project in Cambridge, Minnesota.

Who owns East River energy storage system?

East River ESS, LLC, an affiliate of 174 Power Global, will build the East River Energy Storage System on land leased from New York Power Authority (NYPA), where the Charles Poletti power plant was formerly located.

What is the Salt River pumped storage project?

As part of the Salt River Pumped Storage Project, SRP is exploring opportunities to expand pumped storage hydropower on the Salt River reservoir system. SRP is evaluating two potential sites for a new pumped storage hydropower facility to pair with Apache Lake on the Salt River.

Should run-of-river plants be integrated with energy storage?

Integrating run-of-river hydropower plants with energy storage is being demonstrated for its technical and economic benefits by three national laboratories.

Why should Great River energy use an iron-air battery?

The iron-air battery will allow Great River Energy to store excess energy generated during periods of high energy production and discharge it during times of high electricity demand or low renewable energy output, thereby enhancing grid stability and ensuring reliability.

A significant leap in energy technology was marked as Great River Energy and Form Energy broke ground on the first-of-its-kind 1.5 megawatt (MW) multi-day energy storage ...

In mid-August, the much-talk-about project of Great River Energy and Form Energy started. The project incorporates an iron air battery of Form Energy which is designed ...

Salt River Project (SRP), a community-based, not-for-profit public power utility serving the greater Phoenix metropolitan area, and CMBlu Energy (CMBlu), a designer and manufacturer of long ...

NYCIDA closed its largest battery energy storage project to date, the East River Energy Storage Project, located on an industrial site on the East River in Astoria, Queens.

The East River Energy Storage Project was selected, and subsequently contracted, by Con Edison for an energy supply agreement after the PSC directed the utility to ...

Today we announced a first-of-its-kind collaboration with Salt River Project (SRP) -- the second largest public power utility in the country -- to help accelerate the next...

Colorado-based wholesale public power provider Platte River Power Authority announced it is working with Weld Energy Storage, a subsidiary of NextEra Energy Resources, ...

TEMPE, Arizona and PETALUMA, California - August 31, 2023 - Salt River Project (SRP), a community-based, not-for-profit public power utility serving the greater ...

Its first-ever project is being built with electricity supplier Great River Energy in Cambridge, Minnesota. The two companies said last week (15 August) that groundbreaking ...

FORT COLLINS, Colo., - Platte River Power Authority, the wholesale public power provider owned by Estes Park, Fort Collins, Longmont and Loveland, is working with ...

The tech giant will provide funding for a portion of long-duration energy storage projects developed for the Salt River Project's electric grid, the partners announced Monday.

Salt River Project (SRP) is announcing a new, innovative storage plan aiming to bring long-duration power reliability to Arizona residents. Chico Hunter, Manager of Innovation ...

Salt River Project (SRP) and Google today announced a first-of-its-kind research collaboration to better understand the real-world performance of emerging non-lithium ion long duration energy ...
