

Successful bid price of microgrid storage project in Ghana 2026

How many minigrids & solar net metering projects are being built in Ghana?

Ghana's Ministry of Energy has started accepting bids for the design, supply and installation of 35 minigrids and solar net-metering installations. The projects will be built in coastal areas and lakeside regions, the Abidjan-based African Development Bank Group (AfDB) said on its website this week.

How much does it cost to build a minigrid?

There will be six minigrids for 12 communities in Bono East, requiring \$120,000 (EUR113,900) as the bid security, as well as seven minigrids for seven communities in central and east Gonja in the Savannah Region, for \$75,000. There will also be seven minigrids for nine communities in Krachi East, West and Nchumuru districts in Oti, at \$85,000.

When is the deadline to apply for solar power in Ghana?

The deadline for applications, which must be sent via mail, is Nov. 23, 2023. Ghana recorded 98 MW solar installed capacity at the end of 2022, according to the most recent renewable capacity statistics published by the International Renewable Energy Agency (IRENA).
