

Successful bid price of solar storage inverter project in Germany 2025

Does Germany have a solar-plus-storage innovation tender?

Image: Baywa r.e. The German Federal Network Agency (Bundesnetzagentur) has awarded 587MW of solar-plus-storage in its latest Innovation Tender. As has been the case in many of Germany's recent solar PV auctions, the Innovation Tender ended up oversubscribed, with 154 bids made for 1.8GW of capacity out of 583MW tendered capacity.

How many MW of solar-plus-storage capacity will be awarded?

Both capacity bid for and awarded were higher than the previous innovation auction held in July 2024, which awarded 512MW of capacity for solar-plus-storage projects. The Innovation Tender solicitations were launched in 2020, and are open to project bids that combine two or more renewable or clean energy technologies.

How much does a solar farm cost?

The contracts provide an additional premium in EUR/kWh to winning projects for energy discharged to the market. Prices for the successful bids range from EUR0.0776/kWh to EUR0.0878 ct/kWh with an average price of EUR0.0833/kWh (US\$8.75ct/kWh). Both the average price and the maximum value ended up above the previously held solar farm auction in July.

How many bids did the Bundesnetzagentur oversubscribe?

The German Federal Network Agency, the Bundesnetzagentur, announced the results of its latest auction which ended up being oversubscribed with a total of 53 bids and 779MW of capacity received, nearly double the 400MW limit set for the auction.

In Germany's latest innovation tender held on September 1, 2024, the Federal Network Agency or Bundesnetzagentur received 154 bids representing a combined 1.856 GW ...

The unfavourable trend continues after no proposals were placed in a previous tender round. There were no submissions in an earlier auction in 2023, either. In comparison, ...

The 2025 caps for ground-mounted solar PV systems, roof-mounted arrays and the innovation auctions are slightly lower than the 2024 levels. The new price ceilings are based on lower estimated levelised costs of ...

Additionally, Talesun will highlight the expanded portfolio, now encompassing solar modules, cables, inverters, mounting systems, and energy storage solutions, offering a comprehensive approach to clean energy projects.

Discover the top 10 solar inverter manufacturers in 2025, offering an in-depth review of each global brand.

Successful bid price of solar storage inverter project in Germany 2025

We also examine the global supply chain centers, major production bases, key industry exhibitions.

Solar and power inverters are essential in integrated energy systems that combine solar with storage solutions and backup generators. They enable smart energy management, helping users maximize efficiency and maintain power ...

In Germany's latest innovation tender held on September 1, 2024, the Federal Network Agency or Bundesnetzagentur received 154 bids representing a combined 1.856 GW capacity for solar PV or wind energy ...

In total, 29 solar-plus-storage bids were successful, with an average volume-weighted price of EUR0.0615/kWh (US\$0.0724/kWh), a considerable decrease from the previous innovation tender's...

EU-27 solar PV cumulative capacity in 2025 and 2030 (projected), compared to NECP (National Energy and Climate Plans) targets Solar Outlook in Germany Germany aims to achieve 215 GWp of installed solar capacity by 2030. As of ...

The German PV and Battery Storage Market The first of its kind, this study offers an overview of the photovoltaics and battery storage market in Germany. It provides the latest statistics on the PV market and battery storage systems, ...

11 ????· Discover how Afore's AF6K-SLP hybrid energy storage inverter enabled an Italian home to achieve energy independence, lower bills, and boost sustainability.

All selected projects were for PV plants combined with energy storage. The German Federal Network Agency (Bundesnetzagentur) said the tariffs ranged from EUR0. 0500 ...

Germany's latest innovation tender round on May 1, 2025 has concluded with the Federal Network Agency (Bundesnetzagentur) awarding 488 MW to solar and storage systems.

China Datang Corporation (CDT) has selected Sungrow and Solis for its 1GW solar inverter project from 2023 to 2024. This announcement follows the unveiling of the bid results for the third section of the framework.

Europe's battery storage capacity is expected to grow around five-fold by 2030, bringing with it increasing returns for energy majors, project developers and traders, as the cost of new projects ...

All the bidding projects from Germany's latest innovative auction were a combination of solar with energy storage. Image: Convergent Energy + Power. Germany's latest innovation auction has ...
