

Turnkey BESS EPC contract price in New Zealand

Will Bess become a cog in New Zealand's energy landscape?

We expect that BESS will also become an increasingly important cog in New Zealand's broader energy landscape and that we will see utility-scale solar projects incorporating batteries as a means of providing dispatchable generation during peak demand and enhancing grid stability.

Are EPC contracts available in New Zealand?

EPC contracts are commonly used overseas (including in Australia). However, until recently, they have not been as frequently or commonly used in New Zealand, and there is currently no New Zealand standard form EPC contract available for use by renewable energy developers.

Why is Contact Energy launching a Bess facility in New Zealand?

"Contact Energy's BESS facility represents a significant step towards a more sustainable and resilient electricity network for New Zealand," says Paul Minchin, New Zealand Location Director. "By integrating BESS technology, we're providing a viable alternative and enhancing the dispatchability of renewable energy sources."

Should a project be delivered under an EPC or turnkey contract?

One of the main drivers for and major advantages of delivering a project under an EPC or turnkey contract, as opposed to adopting a multi-contract approach, is that project developers and project finance lenders have a single point of responsibility.

Why do New Zealand's energy needs need a Contact Energy Bess?

New Zealand's growing energy demands are being driven by increased electrification and population growth, highlighting the need for innovative solutions. The Contact Energy BESS is uniquely positioned to address these challenges.

When will Saft be launching a Bess system?

Saft will provide a turnkey solution based on 70 of its Intensium Shift+ lithium-ion battery containers combined with power conversion and control systems. It is planned to come online in the third quarter of 2026. "This will be Saft's third utility-scale BESS to support the New Zealand grid", said Hervé Amoss, Saft EVP Energy Storage System.

b. Battery Energy Storage Systems ("BESS") EPC Contract Considerations The construction documentation of a BESS project can be structured as a lump sum, turnkey EPC ...

WEL Networks and Infratec are proud to announce the launch of New Zealand's largest Battery Energy Storage System (BESS) with commissioning underway. The ...

Turnkey BESS EPC contract price in New Zealand
